## RAMPUR STATE GAZETTEER.

ALLAHABAD :

Printed by W. C. Abel, Offg. Supt., Government Press, United Provinces  
1914.

*Price, Rs. 1-4-0*

## *Alterations and Additions to Part A of the Rampur District Gazetteer, bringing it up to date (1913-14).*

### CENSUS, 1911.

The population of the State according to the Census of 1911 was 531,217 as against 533,212 the figures for the previous Census. The fall is particularly noticeable in Bilaspur tahsil and among the Hindus and is largely due to the prevalence of plague chiefly in 1910.

### VITAL STATISTICS

Ravages of the plague up to 1909 have already been noted in the Gazetteer. The most violent outbreak since then, occurred in the city of Rampur in 1910-11, when the disease carried off about 6,600 people. The following measures were adopted to combat it:—

- (1) A plague dispensary with one hospital assistant and two compounders was opened in the city to supplement the work of the Sadr Hospital and it proved of great advantage to the people.
- (2) The most successful measure was inoculation because more than 6,000 persons submitted themselves to the operation. Out of this number only 24 had an attack of the disease but only nine succumbed to it.
- (3) Rat-killing was also undertaken and suitable rewards were offered to make the measure popular. The result was that above 26,000 rats were destroyed.

### FLOODS.

The year 1910 was one of abnormal floods, the greatest of which occurred on 2nd October 1910 causing immense loss of property including damage to standing crops. Relief measures on a large scale were undertaken in the form of free distribution of timber and of the sum of Rs. 30,000, in the villages and towns affected by the floods. Besides, suspensions of State demand amounting to Rs. 1,75,000, were also granted.

### CITY IMPROVEMENTS.

Great improvements have been effected in the bazar of the city. Shops and other buildings situated along main roads in the city

have been rebuilt according to designs previously approved of by His Highness. Buildings owned by private persons have been built by their owners while those who could not afford to remodel their shops have been given pecuniary aid from the State Treasury to be repaid by nominal instalments. The shops now present a fine appearance, and the owners get better rents.

A new corn market has been built in the heart of the city not far from the Fort as the old market could not meet the growing requirements of the local trade. The market consists of three rows of double storeyed shops in the form of an oblong with a railing in front and courtyard in the middle. The expenditure amounts to about a lakh of rupees. It is named "Meston Ganj" and was formally opened by his Honour Sir James Meston, Lieutenant-Governor, in October 1912.

The great mosque known as the "Jama Masjid" which is situated in the neighbourhood of the Fort has also been remodelled and now presents an imposing appearance having cost about three lakhs of rupees.

But perhaps the most important improvement is the electric installation in the city. Under this scheme all the main roads have been provided with electric light in place of the comparatively dim light of lamp posts; and arrangements have been made for the supply of light and fans to private persons who require it at nominal rates. The contract for the work was given to Messrs. Siemens Brothers & Co., of Calcutta, and has cost about two lakhs of rupees. The installation was opened by His Honour the Hon'ble Sir James Meston in 1913.

#### FACTORIES.

The sugar and flour factories both owned by the State have been in existence for some years and have proved paying concerns. During the year (1913) an ice factory has been opened to meet local demand. But it is as yet too early to pronounce any opinion about it.
